

Power Fail Alarms

Pumpalarm Cellular Water, Temp and Power Fail Alarm

PumpAlarm Cellular Water and Power Alarm, Wireless Water Alarm, Text Message Alarm System

Text Message Water Alarm | Temp Alarm | Power Alarm

WHAT IT DOES

Simple to use, real-time text message alarm for peace of mind protection. Know when water is high, when power has failed, temperature is out of range or alarms for other dry contact type sensors. Get real-time text message alerts so you can respond to the problem before property damage happens.

- **Know about sump pump problems before you have a flood with a sump pump text alert**
- **High Water Level or Low Water Level**
- **Power Loss Alarm / Power Fail Alarm or GFCI Trip Alarm - and real-time alerts when power is restored**
- **Low Temperature Alarm or High Temperature Alarm**

HOW IT WORKS

- Receive Real-time Text Notifications on Up to 3 Phone Numbers. Need more #s or a phone call? [Contact Us](#) for additional options.
- Standard Two Sensors / Two Inputs to monitor different zones / areas
- Signal Splitters available for Each Input Available to Expand the system with additional sensors
- No Phone Line Required, No WiFi required, No Cell Phone Plan or Internet Connection Needed
- Battery Backup is built in. The Pumpalarm.com Unit Uses 4) AAA batteries to keep alerts coming even when power is down. No power, no problem
- Local Audible Alarm along with and SMS / Text Notifications
- Helps Prevent Flood Damage \$\$\$
- Save Thousands In Potential Property Damage
- Elder Care - Know When You, A Friend or Loved One Loses Power or has an alarm
- Quick and Easy 5 minute Installation
- Text Message Notification service **only \$49.99 / year**. Activate at pumpalarm.com/activate

WHAT IT PROTECTS / WHO IS IT FOR

Homes & Rentals

Your home, a vacation home, rental property, or property management - use our device to monitor leaks and floods, power failure & temp.

Sumps, Pumps & Plumbing

Pumps fail putting your location or basement in harm's way. Prevent overflows with a preventative text message capable sump pump alarm.

Aquariums & Aquaculture

Your aquarium requires reliable power for water quality and temperature control. Get real-time notifications for low water, temperature and power.

Water Systems & Tanks

Water is life. Protect it with real-time levels, temp and power fail for potable water systems, cisterns, agriculture, livestock tanks and more.

Boats & Marine

Monitor bilge pumps, sumps, engine rooms, marine power systems and living quarters with timely alerts that will keep your boat above water.

IT, Servers & Telco

IT & Telco systems rely on power. Get externally & system independent alerts for power fail, high temp, low temp and more. Get temperature, water and intrusion detection.

Food Trucks, RV & Mobile

Simple monitoring and alerts - wherever you go or wherever you park it. Monitor power outage, power fail time, power restored time, high temps, low temps, and more on the road and home.

Furnace & HVAC

Freezing temps, fan failures & cooling failures can ruin your day. Monitor low temperature, high temperature, power failure & water detection for furnace / HVAC / heat pump and AC systems.

HOW TO SETUP / INSTALL

3 Easy Steps Time Required: 5 min

Installation Video

- 1.) Activate alarm unit at pumpalarm.com/activate
- 2.) Install Provided AAA Batteries, Mount Alarm and Plug In into outlet
- 3.) Install Sensors and Test!
